BIO BIDET 1000

BIO BIDET 800

The Bio Bidet allows the users to cleanse and dry themselves while remaining seated. It is a wonderful aid for people with disability; it offers dignity and independence.

Bio Bidet is a toilet seat, a bidet and a dryer all in one and by definition a brilliant space saver. Bio bidet cleanses with a gentle, warm aerated stream of water and gives the user the comfort of a gently heated seat. A convenient remote control (bb1000 only) allows you to personalise the functions, including water temperature, pressure and a gentle cycling massage feature. After cleansing a touch of a button will activate

a warm air-dryer which also features adjustable temperature control.

If washing the hands is a basic part of bathroom hygiene, then intimate washing is quite simply a logical addition to the daily hygiene routine. Cleansing with water is more comfortable, more effective and above all more hygienic than toilet tissue.

Quality Electronic Bidets is based in York and Scarborough we offer a supply only or fully fitted service with full dealer back up. We pride ourselves on our professional and caring service.

Bio bidet is truly the most advanced and complete bidet seat in the industry.

- They are equipped with state-of-the-art "smart power saving function" that calculates the most frequently used hours of the day for maximum savings with a powerful deodoriser (bb1000 only) that eliminates up to 90% of embarrassing odour.
- Its 1 pocket 3 nozzle design allows maximum hygiene.
- Equipped with the most advanced "Capacitance" seat sensor and "Self Diagnosis".
